

ITSAUL NATURAL

Growing Media for Green Roofs

100% Pre-Consumer Recycled
Expanded Slate Belt Fines

For Extensive and Intensive Green Roofs

Stalite PermaTill® Expanded Slate Features and Benefits:

- Porous for additional storage and retention capacity to reduce runoff and water needs
- CEC 26.9 me/100g increases filtration and nutrient retention; also reduces organic needs in media
- High permeability with moisture retention for consistent hydro-conductivity
- Deep aeration for roots and beneficial microbes
- Meets FLL Guidelines
- Available in bulk or super sacks , can be blown into place
- Qualifies for LEED® Pre-Consumer Recycled

Additional Sustainable Applications with ItSaul Natural Products:

www.itsaulnatural.com - 800/301-2887

Existing tree root bridging and compaction reduction • Structural soils for turf areas and fire lanes • Landscape soil additive for improving aeration and drainage • Protecting roots from vole damage • Greenhouse and nursery production • Bioretention and constructed wetland media • Pathways and decorative stone • Geotechnical uses • Permeable pavement
